

MicroStrategy Report Services: Dynamic Dashboards 200

Overview:

This one-day course expands the study of Report Services Dynamic Enterprise Dashboards™ by focusing on advanced dashboard design techniques. The course begins with a hands-on study of multi-panel dashboards. Students then learn how to use specialized widgets that are available in the MicroStrategy Widget Library. The course concludes with a lesson on useful design techniques, including several new features available as of MicroStrategy Report Services version 8.1.1. Each lesson includes a set of hands-on exercises.

Cost:

- \$650 per person

Number of Days:

- 1 day
